

Dear Family,

Now that the nights are dark and cold, here is an activity that you do at home with your child together.

### “If I Were a Snowflake” Journal

1. Ask your child questions like “What are snowflakes?”, “What color are snowflakes?” “What do snowflakes do?”
2. Then ask your child “If you were a snowflake what would you do?”
3. Have your child imagine that he/she is a snowflake and record the answer on the snowflake paper on the back of this paper.
4. Ask your child to tell you a story about the picture.
5. Ask your child to write a message about the picture. Remember scribbles and invented spelling is okay. Your child will have fun pretending.

**When your snowflake journal is complete, have your child return it to class.**
